

## **Instructions for Reading the 1996-1997 Student Migration Report**

The *1996-97 Student Migration Report* compares fall 1996 enrollment in Texas public community and technical colleges to fall 1997 enrollment in these institutions. The data are taken from the CBM001, Student Report, which records students enrolled on the official census date (12th class day for fall and spring semesters) in semester-length courses.

For this migration report, students were tracked through their social security numbers. This study does not include students enrolled in the spring 1997 or summer 1997 semesters. The data also do not include students who enrolled in private institutions.

A detailed migration report specific to your institution can be produced upon request, but will require additional time. Requests for a detailed migration report or questions about the report should be directed to Steve Castañeda [castanese@thecb.state.tx.us](mailto:castanese@thecb.state.tx.us) or 512-483-6250.

The *1996-1997 Student Migration Report* data are categorized five major ways:

- a. SAME INSTITUTION--Students who were enrolled in the 1996 fall term at a public community or technical college and who returned to the same college in the fall of 1997.
- b. OTHER JR--Students who enrolled in the 1996 fall term at a public community or technical college and transferred to another public community or technical college in the fall of 1997.
- c. OTHER SR--Students who enrolled in the 1996 fall term at a public community or technical college and transferred to a public senior college or university in the fall of 1997.
- d. CONCURRENT ENROLLMENT - Students who enrolled in the fall 1996 term at a public community or technical college, and subsequently enrolled in two or more postsecondary institutions (a public community or technical college and/or senior institution) in the 1997 fall term, neither of which was the original 1996 institution.
- e. CANNOT LOCATE--Students who enrolled in the 1996 fall term at a public community college or technical college and who could not be identified through the Coordinating Board student record files in the fall of 1997.

Below the aggregate totals for each institution are additional categories:

- a. A student who returned to the same institution and concurrently enrolled in another institution in the fall of 1997 was counted in the category SAME INSTITUTION. (See the line listed as "SAME INST. AND CONCURRENT" below the gender and ethnicity categories.)
- b. Some institutions assign temporary social security numbers to enrolling students who do not have social security numbers. False matches are possible when more than one school has used the same temporary social security number. To avoid incorrect matches, invalid social security numbers are not included. (See the line listed as "BAD SSN'S" below the category "SAME INST. AND CONCURRENT" for a count of these records.)

## LIMITATIONS

The data used in the *1996-1997 Student Migration Report* is provided to the Coordinating Board by institutions. The Board does not independently verify the data.

Some institutions inaccurately report students who fall into the TECHNICAL-VOCATIONAL category as academic students. Therefore, the ACADEMIC category in the State Summary Report may also contain technical-vocational students who were not reported in the TECHNICAL-VOCATIONAL category by their institutions.

The numbers in the undeclared category represent students who may ultimately declare either an academic or technical-vocational intent.

The current reporting system does not track students who transferred to private colleges, enrolled in colleges out of the state, or entered the work force.

Graduates are not specifically identified in this report, but they are accounted for as part of the whole. The *Student Migration Report* simply includes all students enrolled in the fall term and looks for them the following fall term. Graduates are placed in one of five major categories. Graduates who do not fall into one of the first four categories are counted in the "Can Not Locate" category.
